# SMART SIGNAGE SYSTEM ——— e-shelf-labels

SmaSS Office - Smart Suite for smart Companies

SmaSS Office is the digital room signage solution to replace the traditional paper printed signage by using the latest radio and e-ink technology. Save resources by displaying real-time information from the in-house calendar or user data system. SmaSS Office reduces the complexity of the underlying display system and automatically addresses the displays. Different data sources and different display technologies such as our VUSION Label can be integrated to visualize the information.

Your advantages:

- Click & Install
- Multiple languages
- Scalability
- Multi-client capability
- Responsive Web UI
- Cloud or on-premise

Data sources:

- Calendar systems
- ERP/inventory management
